

# Jupiter in the Signs from 1927 to 2032

Created by Cayelin K Castell

Shamanic Astrology sees Jupiter as the primary spiritual path (Yoga) or Dharma for achieving your current life goals. Said another way, when we take action aligned with the archetypal energies of our natal Jupiter it is the quickest way to further our soul's purpose. Additional factors for clues about your personal Jupiter and the intention it describes on your natal chart, include the House Position of Jupiter, and what other planets may be conjunct Jupiter. What is presented here is focused on finding the sign Jupiter was in at the time you were born (with brief sign descriptions below) and also locating your next Jupiter return an important cycle of initiation that happens about every 12 years.

## Finding your Personal Natal Jupiter

The first step to find where Jupiter was when you born is to look through the table below and find the year you were born. Some years Jupiter retrograded back into the previous sign, so be sure to note the dates when you are locating the sign of Jupiter around your birthday in the year you were born. On the days that Jupiter is changing signs the only way to know for sure what sign Jupiter is in - is to have a birthtime and run a natal chart. **The Jupiter Return** is the high point of the 12 year Jupiter cycle offering renewal of vision and re-alignment with your soul's purpose. The Jupiter return can be affected by other personal cycles you may be experiencing and it is also affected by your intent to work with these energies to maximize the gifts of this recurring Timing.
